13-24 Apr 2020	20-31 Jul 2020	16-27 Nov 2020
11-22 May 2020		

**Target Audience**

This course is ideal for teachers, tutors, trainers and/or educators who wish to develop their fluency and communication skills to express themselves more easily and more confidently in English. We assess each participant, thereby ensuring that the course is at the right level for you. Those at a lower level will join a General English course which will include modules with a focus on language development and hands-on practice of speaking and listening skills in English.

**Course Summary**

This 2-week intensive course is ideal if you are looking to develop your English language and communication skills. This course is specifically designed to promote your participation and interaction so that you will improve your fluency and learn to communicate more easily and confidently. The sessions are hands-on and will involve discussions about current affairs and topics of general interest, using brainstorming, problem-solving tasks and role-play in both pair-work and group-work activities. The use of multimedia, the internet and authentic material, such as current affair websites and journals, generates stimulating discussions and a professional environment for you to practise and improve your English.

This course is similar in structure to our one-week Fluency and English Language Development course. However, when following the two-week programme, you will have more time to develop your fluency as well as look into a wider variety of areas and topics such as using the English language for classroom management, presentation skills and more. You will also have an opportunity to work on any weaknesses you and your trainer might identify.

**Preparation**

After registration, participants on this course programme will receive:

A pre-course questionnaire which will enable trainers to learn about the participants' backgrounds

An online test to help stream teachers into suitable levels

Information about the Europass Mobility Certificate

**Objectives**

To further develop participants' own language skills, with particular focus on fluency in English

To improve language knowledge in grammar, vocabulary and pronunciation

To develop other practical communication skills, such as listening

To exchange pedagogical information & knowledge in a multi-cultural context

To experience the cultural heritage of Malta with its bilingual linguistic environment

**Methodology**

An interactive communicative approach is applied, which provides participants with experiential learning. Participants develop their fluency through discussion about current affairs and topics of general interest.

Input sessions are in the form of hands-on workshops or discussions for fluency work, and involve brainstorming, analysis, problem-solving, and role play, both in pair-work & group work.

Participants are asked to reflect on the activities, inviting discussion with regard to their own pedagogical knowledge & skills, teaching methods & contexts.

Participants are actively involved in the sessions to maximize their learning and to experience activities from their learners' point of view.

**Follow Up**

The course ends with an evaluation session, where teachers are asked to reflect upon the value of the knowledge gained on the course.

They are also encouraged in this session to come up with a Personal Development Action Plan to further their development.

They are invited to join the ETI Teacher Training Facebook community, which allows networking and contact with the trainers and fellow colleagues, and with participants from other courses.

Participants are also encouraged to join communities for the current POOLS Projects, and other ETI-related EU Projects, such as METHODS (Communicative Language Teaching Methods), TOOLS, and CLIL4U.

In addition, participants are given a post-course 3 month subscription to our e-Learning online site to further develop their language
